

THAT'S IT! I'M MOVING

It's your right to switch

Private health insurance

Did you know you can switch health funds at any time? Well, you can.

There won't be a waiting period* if you keep the same level of hospital cover.

Your 'Lifetime Health Cover' won't be affected.

And your old fund will pay back any money you've paid in advance.

It's easy to do

Phone your new fund and answer the questions they ask. Confirm with your new fund that there will not be a waiting period. Your new fund will contact your old fund directly.

The old fund will be asked to send through a transfer certificate with your premium level and conditions.

Your new fund will then allow you entry at the same cover level.

We're creating conversations with patients.

*unless your payments are not up to date or you are already serving a waiting period with your old fund.
